

JOB OFFER

Fundació ENT (www.ent.cat) is looking for a candidate to join a LIFE project on biowaste. The project will start on the 1st of January 2023.

The main tasks will be: conducting quantitative and qualitative analysis of policies and data related to biowaste collection and treatment, preparing technical reports, preparing dissemination materials, organising and participating in workshops, etc.

JOB DESCRIPTION

| Start date: 1st January 2023 (or closely after that, if not possible).

| Dedication: full time (8 h/day).

| Period: a 24-months contract will be offered (“contrato indefinido” under the Spanish Law), including a 3-months trial period.

| Gross Annual Salary (for full time 8h/day): between 29,000 and 33,000 EUR, depending on the experience of the candidate.

| Place of work: most of the work will be done remotely, but physical presence will be required for some of the tasks. There will be the option to work at Fundació ENT’s office (C/Llanza, 1-7. 08800 Vilanova i la Geltrú, Barcelona, Spain).

COMPULSORY REQUIREMENTS

| EU citizen candidates must have a valid passport and apply for a Foreigner’s Identity Number (Número de Identificación de Extranjero – NIE) and a social security number. Non-EU citizen candidates must have a work permit.

| Previous professional experience in waste management: collection, treatment, and data analysis.

| Languages: Professional use of English (C2). Reporting will be in English.

| Degree in Environmental Sciences, preferably. Other related degrees may be considered.

| Experience in EU projects.

| Flexibility to undertake different research and consultancy tasks.

OTHER ASPECTS THAT WILL BE HIGHLY VALUED

| Languages:

- English as native language.
- Professional use Spanish and/or Catalan (C2).

| Experience in biowaste management, specifically: waste collection, waste treatment, etc.

| Experience in environmental and circular economy regulations and policies.

| Experience in the design and implementation of participatory research activities such as workshops, interviews, questionnaires, etc.

| Experience in statistical analysis.

| Previous publications in scientific journals.

OTHER ASPECTS THAT WILL BE CONSIDERED

- | Other languages.
- | PhD finished or in progress.
- | Expertise in life-cycle analysis.
- | Experience in LIFE projects.
- | Experience in preparing EU project proposals.

Interested candidates, please send:

- | Your CV (including academic record)
- | A cover letter indicating how the compulsory requirements are met

To info@ent.cat before 27th November 2022.
