ENT MEDIO AMBIENTE Y GESTIÓN

ENT es una **iniciativa socioeconómica** que se lleva a cabo a través de dos organizaciones: una consultoría (**ENT Environment and Management** - Serveis de Suport a la Gestió, SL) y una fundación (**Fundació ENT**), y que actúa de centro de investigación en innovación ambiental.

En ambas trabajan un grupo de **profesionales multidisciplinares** con un alto grado formativo y de experiencia que comparten la visión y misión global del proyecto.

Llevamos a cabo proyectos principalmente vinculados al **desarrollo e implementación de políticas públicas**, centrándonos en el ámbito de la elaboración, el análisis y la gestión de las mismas.

Trabajamos, en la mayoría de casos, con **entidades sin ánimo de lucro**: administración pública, ONGs, sindicatos, universidades, etc., aunque también llevamos a cabo proyectos para iniciativas con ánimo de lucro si estos comparten y son coherentes con nuestros valores.

Favorecemos el **trabajo en red** y la participación en entidades y redes asociativas que comparten nuestros objetivos, por eso formamos parte de diversas iniciativas colectivas y redes internacionales como ACR+, MedReAct y Seas At Risk.

Nuestra gestión está orientada a la **satisfacción del cliente** ya una **gestión ambiental eficiente**, por lo que la consultoría (ENT, medio ambiente y gestión) dispone de los **certificados ISO 9001:2015** (nº certificado ES084071-1) e **ISO 14001:2015** (nº certificado ES084072-1), expedidos por la entidad de certificación Bureau Veritas Certification, S.A.

Tenemos la sede en Vilanova i la Geltrú (Barcelona) y **nuestro ámbito de actuación es global**, aunque la mayor parte de nuestra actividad se lleva a cabo actualmente en Europa, mediante la ejecución de proyectos a varios niveles: local, estatal, regional y europeo.

ENT cuenta con una **amplia experiencia en el desarrollo de proyectos de asesoría, investigación y cooperación al desarrollo en el ámbito internacional**, que hemos llevado a cabo tanto individualmente como integrados en consorcios.

Nuestra experiencia previa cubre el ámbito de **la economía y el medio ambiente, los residuos, la energía y el cambio climático, el medio marino y la ecología política**.

En nuestra planificación de actividades queremos **profundizar en el trabajo internacional**, por eso estamos abiertos a establecer colaboraciones con organismos públicos, fundaciones, universidades, empresas y otras entidades principalmente de Europa y Latinoamérica para participar en convocatorias públicas, programas marco y licitaciones de la Comisión Europea y de otros organismos internacionales y multilaterales, en las áreas mencionadas.

A continuación se muestran, por áreas de trabajo, algunos de los **proyectos internacionales en los que ENT ha participado**:
